EDUCATION

THE AMERICAN COLLEGE

- Bachelor of Computer Application
- GPA 6.7

HIGHER SECONDARY SCHOOL

- Nehru Vidhyasalai Hr.sec school
- 80.42%

SKILLS

- Python
- Django, Flask
- MySQL, SQLite
- RESTful APIs, Postman
- Django ORM, Flask SQLAlchemy
- Git, GitHub, VS Code, Linux (basic commands)
- AWS/EC2 & S3
- HTML, CSS (basic for integration), JSON, Debugging & Logging

LANGUAGES

- English
- Tamil

PROFILE SUMMARY

Python Developer with 2 years of experience specializing in Django and Flask frameworks. Skilled in building scalable web applications, RESTful APIs, and managing MySQL databases. Experienced in working with service-based companies. Strong focus on writing clean, maintainable code, optimizing backend performance, and delivering high-quality software solutions.

WORK EXPERIENCE

Wingsser Solutions

Software Engineer

- Led the backend development of scalable web applications using Django and Flask, delivering robust RESTful APIs and optimized MySQL database operations across multiple client domains.
- Collaborated with cross-functional teams to implement role-based access control, customized Django admin features, and ensured clean, maintainable code for high-performance applications.

Community Board :

Blockchain-based - Community Management

- Researched governance and community needs to design modules for decentralized voting, content moderation, and user verification, improving transparency and trust across the platform.
- Collaborated with cross-functional teams to develop RESTful APIs, customize admin tools, and ensure seamless backend performance aligned with platform goals and compliance standards.

NexaConnect :

User Engagement & Content Management System

- Researched user interaction needs to design features like content sharing, direct messaging, and wallet integration, enhancing overall platform usability and engagement.
- Worked with cross-functional teams to build RESTful APIs, implement social modules, and optimize backend performance for a secure and responsive user experience.
